🎯 Target Role: Full Stack Developer (MEAN / MERN Stack)

Profile

Computer Science student with a strong interest in Full Stack Web Development. Passionate about building scalable web applications using modern JavaScript technologies on both frontend and backend.

Education

Bachelor's Degree in Computer Science

(3rd Year Student)

Technical Skills

Programming Languages:

- JavaScript (ES6+)
- TypeScript

Frontend:

- React.js
- Angular
- HTML5
- CSS3

Backend:

- Node.js
- Express.js

Concepts:

- RESTful APIs
 - CRUD operations
 - Authentication basics (JWT - if applied)
 - MEAN Stack development
-

Training & Courses

- MEAN Stack Course – NTI (National Telecommunication Institute)
-

Projects

- **E-commerce Website** – Built using Angular with a Node.js & Express.js REST API backend. Includes product listing, basic cart functionality, and API integration.
- **Task Management System** – Full CRUD application using JavaScript stack, allowing users to create, update, delete, and track tasks.

Experience

- No formal work experience yet
-

Career Objective

Seeking an opportunity as a Full Stack Developer to apply my skills in JavaScript technologies, contribute to real-world projects, and grow in a professional development environment.

Notes

- Strong focus on Full Stack (MEAN / MERN)
- Actively improving problem-solving and backend skills
